

Critical video, anytime, anywhere.

Manage traffic flow and positioning of assets.

Control remote surveillance.

Conduct mobile investigations and access recorded video.

Manage critical incidents and send to first responders.

Share campus video for better management of critical situations.

Decrease response time for loss prevention.

With C3, you can leverage your existing video assets for a level of situational awareness never before experienced.

SITUATIONAL AWARENESS...PERCEPTION OF ENVIRONMENTAL ELEMENTS WITHIN A VOLUME OF TIME AND SPACE, THE COMPREHENSION OF THEIR MEANING, AND THE PROJECTION OF THEIR STATUS IN THE NEAR FUTURE.

C3 with LeX-Ray Vision.

C3 is a one of a kind video command center that allows the user to command, control and communicate with an unlimited number of live camera feeds through the web, iPhone, iPad, iPod touch and Blackberry devices. No other solution spans all of these platforms with consistency, security and optimized video delivery.

LeX-Ray Vision allows the end user to view both live video and recorded view on a split screen. Investigations using recorded video can now be done through a mobile device, allowing personnel to move closer to the scene, away from a desk and a monitor for more effective decision-making.

Features of C3 include:

- **LeX-Ray Vision:** View recorded video while continuing to watch live video through a split screen format, never missing a critical moment.
- **Time Sync Between Views:** Easily capture the same event from multiple cameras.
- **Easy to Use:** Mobile interface and web-based administration is flexible and intuitive.
- **Multiple Platforms:** Consistent interface across the web, iPhone, iPad, iPod touch and Blackberry devices to view up to 20 live feeds (device dependent) simultaneously.
- **Optimized Video Delivery:** Ensure immediate delivery of video no matter where you are.
- **Secure:** Multiple levels of encryption and security. Point to point video, your video stays on your secure network.
- **Seamless Integration:** Rapid deployment of solution and minimal impact on your existing infrastructure.
- **Mobile Investigations:** Quick identification of events, immediate playback, rewind, forward and slow motion your recorded video.
- **Share Critical Video:** Share critical video events in real time with the proper authorities.
- **Flexible Scalability:** Unlimited cameras, unlimited video servers and unlimited users.
- **Ultimate Control:** Pan, tilt and zoom features standard on all C3 viewing clients.

Technical Specifications

Privacy & Security:

5 layers of encryption and a minimum of 3 layers of authentication before video can be accessed.

Network Compatibility:

WiFi or Cellular Data. (4G, 3G, 2G)

Network Optimization:

Adjusts video speed/flow based on connection speed.

Client Compatibility:

iPhone, iPad, iPod touch, Blackberry, Web Browsers

Web Browser Compatibility:

Internet Explorer, Safari, Firefox

Patent Pending Technology

Compatibility:

- Milestone XProtect Corporate, Enterprise, Professional, Go, and Basis +
- OnSSI NetDVMS, NetDVR, NetEVS, and ProSight SMB
- JVC VR-N900U & VR-N1600U NVR's
- Motion JPEG video sources
