**iRa C3 Wins Chicago Innovation Award**

Lisle, IL , November 1, 2010 -- Lextech Labs' iRa C3™ video surveillance software received the Chicago Innovation Award in a ceremony at the Goodman Theater in Chicago. The Chicago Innovation Awards, established in 2002, highlight winners' innovations that are uniquely filling unmet needs, spark a competitive response in the marketplace, exceed market expectations, achieve financial success and improve people's lives.

"Winning the Chicago Innovation Award is such a honor for our company. We felt strongly that we had delivered a solution that is protecting lives and changing the way surveillance systems are used. By winning this award here in Chicago where we are based, allows Lextech Labs to stand proud amongst other Chicago based company winners like Abbott Labs, Molex, and Motorola," said Jeff Gibson, President of Lextech Labs.

iRa C3 unlocks the full potential of video surveillance by distributing realtime video to the people that need it the most. It is the preferred mobility viewing and control solution for security and crisis response teams throughout the world. iRa C3 products provide realtime situational awareness to facilitate communication and time-sensitive decision making. Recent upgrades include the ability to view recorded view and live video in a split screen format.

"We are proud to select Lextech Labs and the iRa C3 as a winner of the 2010 Chicago Innovation Awards. Through its innovative approach that combines technology and security, Lextech Labs is a company that exemplifies the creative spirit that drives innovation in the Chicago region." - Tom Kuczarski, Founder and Co-Chair, Chicago Innovation Awards.

Apps are available for the iPad™, iPhone, iPod touch® and Blackberry®. UNIX®, Linux®, Mac® and Microsoft Windows® based web browsers also serve as team viewing platforms. iRa C3 was developed by the award-winning Lextech Global Services engineering team.

## **About Lextech Labs**

Lextech Labs is a provider of mobile solutions allowing video to be instantly delivered to mobile devices. The company was a winner in the Best New Technology Product of the Year category of the 2010 Edison Awards. Lextech Labs' products include the C3 application for Apple and Blackberry platforms and computer web browsers. The company's customers include federal agencies, law enforcement, universities and convention centers.

## **About Chicago Innovation Awards**

Established in 2002, the Chicago Innovation Awards shine a bright light on the creative spirit of Chicago by focusing attention on the most significant new products and services introduced in the region. The ten winners each year are innovations that uniquely fill unmet needs, spark a competitive response in the marketplace, exceed market expectations, achieve financial success, and improve people's lives. They emerge from the public, private, and nonprofit sectors. Most importantly, the Chicago Innovation Awards remind us that innovation is thriving in America's heartland.
